

Dear garbage man/lady,

I am writing this letter to thank you and let you know how much I appreciate everything that you are doing to help our community. I know this must be a lot for you, but I really appreciate how you keeping us all safe. I am really thankful to be at home with my family, to be able to continue to go to school online and be able to play outside. Without your help I wouldn't be able to do any of these things because there would be garbage everywhere. Thank you for helping us all during this crisis.

I know you are an important member of our community because you take care of us by taking away our garbage. Without people like you people would not know where to put it and we would have garbage piled up everywhere.

Sincerely,

Naomi
